

Mouth Says Yes VO

Reason says “NO, that outfit choice makes no sense.”

Indecision says “NO, don’t travel the world now, do it later.”

Society says “NO, that’s not how it’s done” ...whatever ‘it’ is.

Why does the world keep telling us “You should do this”, “You shouldn’t do that”?

Why have we become afraid to say YES to the things we want?

Why have we let our brains take control and say NO to stuff we enjoy?

Fanta believes your wants are equally as important as your needs.

Here to remind us not to always listen to your brain,

Coz when it comes to the lip-smacking refreshment of Fanta

maybe, just maybe our mouth knows better?

So, listen to that clever little mouth of yours when it says...

YES, wear that weird ass fit, it looks tasty on you.

YES, buy that ticket and get outta town.

And hell YES, follow your tastebuds and grab that Fanta from the fridge.

FANTA. MOUTH SAYS YES.

Brain Vs Mouth Experience

Got a burning question and don’t know whether to listen to your brain or your mouth?

Scan any Fanta pack to visit an online lab where you can ask the Brain and the Mouth a question; the Brain will always give you a “you should” answer, while the Mouth will give you a hilarious “do what you want” answer.

The Brain and Mouth will be voiced by unexpected celeb combos. For example:

- Dr Fauci (brain) and Rickey Thompson (mouth)
- Neil Degrasse Tyson (brain) and Emma Chamberlain (mouth)
